---

Angie Hammond is left to manage their drugs business, while her husband is inside, and she feels she is perfectly capable of doing this whilst looking after her three teenage sons. Following a family tragedy, she discovers who is targeting them, and she heads to Liverpool with her sons by her side.

They are about to enter a world where murder is an everyday occurrence, and certainly not something they are used to, but they have a score to settle and they will not return to London until their job is done.
